

How to Assign Program in a Course set:

Program:

Programs in Learnexify organize Course Descriptions and can lead to certificates or other validations showing learner mastery. They also define pre-requisites and co-requisites and create structured class batches based on a set schedule or sequence.

From the list of all **course sets**, click on the **Program icon** of the **course set** to which you want to **assign a program**.

Program Management > Manage Course Sets

Manage Course Sets

All A B C D E F G H I J K L M N O P Q R S T U V W X Y Z

IDNUMBER	NAME ↓	DESCRIPTION	PROGRAMS	COURSE DESCRIPTIONS	DISPLAY PRIORITY	
DCS	DCS Program	This course set includes all 8 courses of the Diploma in Computer Science (DCS) program. It covers programming, databases, data structures, operating systems, web development.	0	8	1	  
CS20	Elective Group A		2	3	1	  

- Once the program **tab opens**, you will see the programs already assigned to that course set. To assign **additional** programs, click on the **Available to Assign button**.

Program Management > Manage Course Sets > DCS Program

Showing 1-1 of 1 Result Page: **1**

A list of available programs will be displayed. Select the **program** you want to assign.

When you click the **arrow icon** in the program list, the **Program/Course-Set Association panel** will open. This panel is used to assign the program and define its requirements.

Program Requirements

Required Credits:

Specify the number of credits a learner must complete out of the total required (e.g., 18/18).

AND/OR Condition:

Defines how the requirements are evaluated:

- AND = All conditions must be completed
- OR = Any one condition can be completed

Required Courses:

Define the number of courses that must be completed within the course set (e.g., 6/6).

- After filling in all **required fields**, click the **green tick (?)** to confirm and **save** the assignment.
