

Learnexify Course Set

The Course Sets feature is used to organize multiple courses into a structured group that can be assigned to any Learnexify Program. At the program level, each course set can have defined credits and required course conditions that must be completed.

The purpose of this feature is to provide a clear structure for managing courses and programs, making administration easier and ensuring that all data remains organized and consistent.

How to Create a Course sets

- After logging in, you will see the dashboard.
- Open the **side menu**.
- Click on **Program** and then select **Manage Course Sets**.

- A page will open displaying the existing course sets. To create a new course set, click on the Add Course Set button.

Program Management > Manage Course Sets

Manage Course Sets
