

Overview & Setup

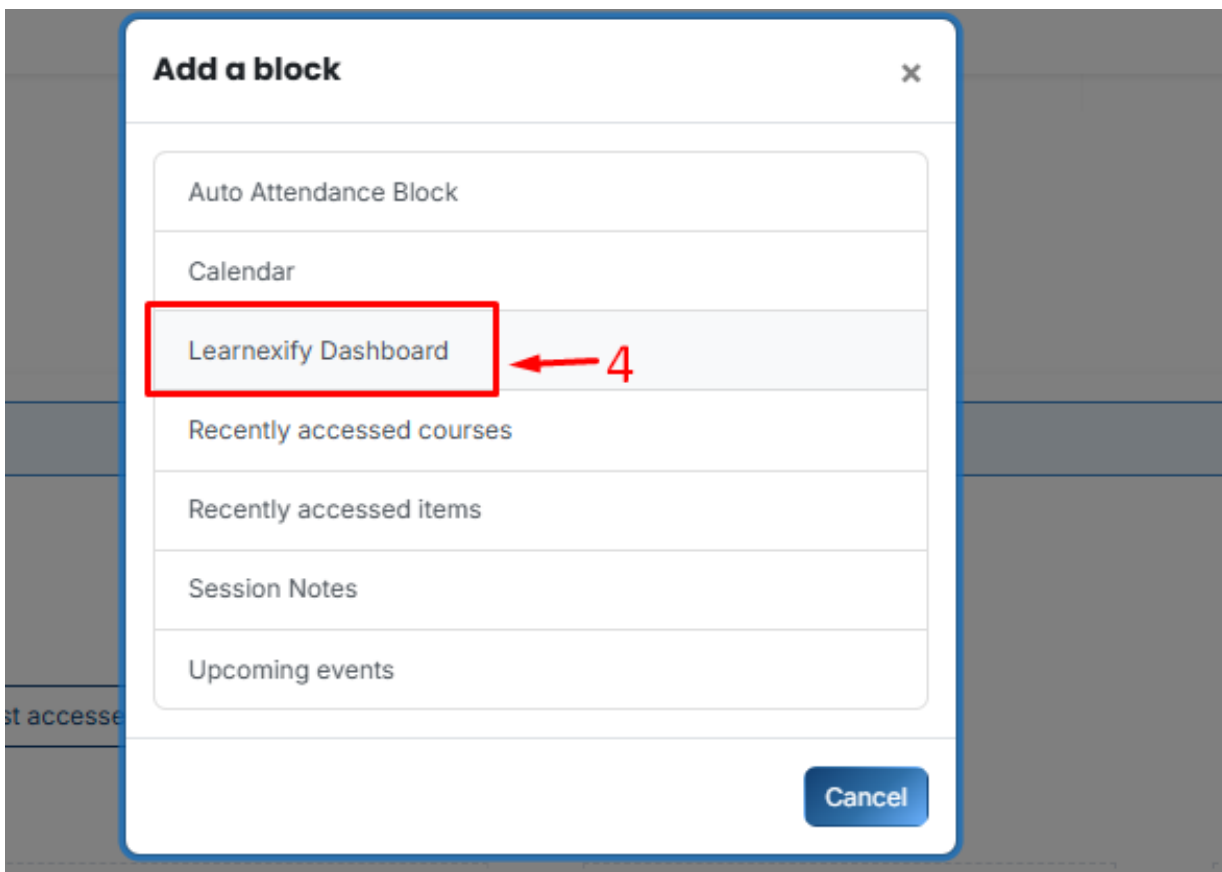

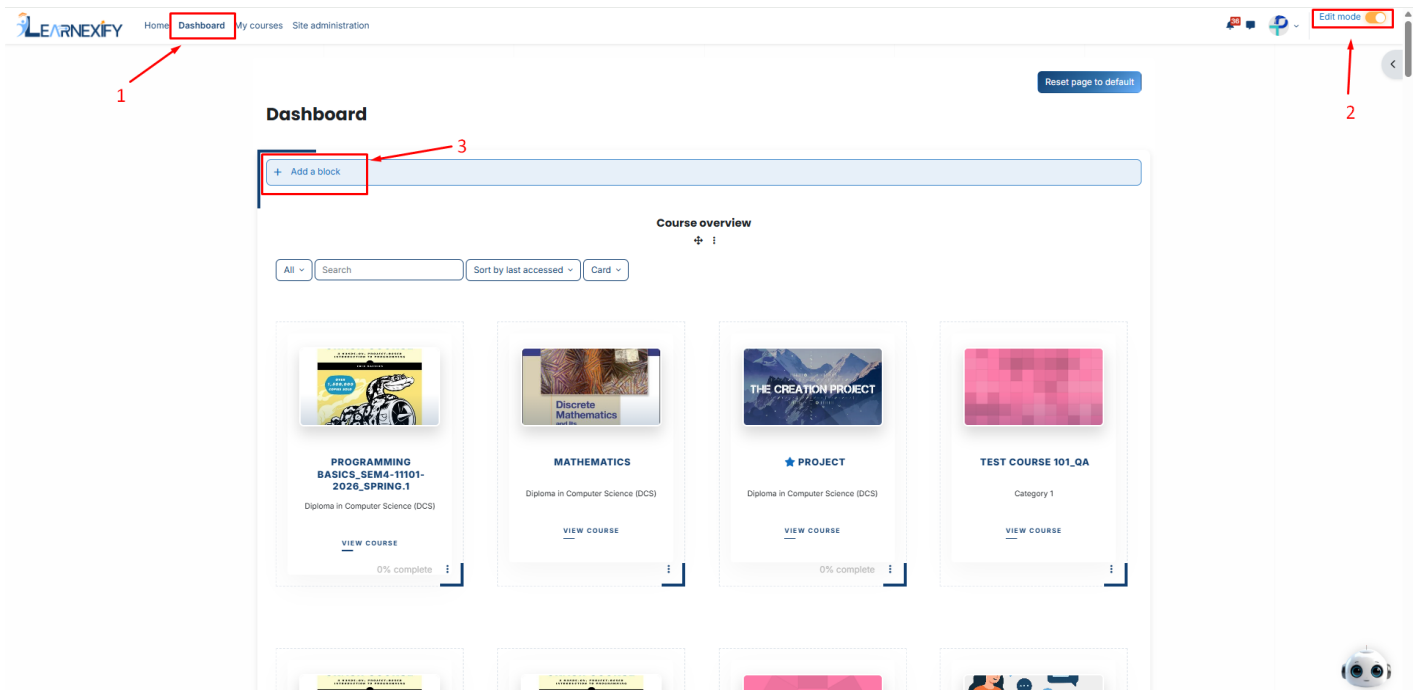

The Program Widget is a centralized dashboard block that displays all programs assigned to a user. It acts as a "Learning Hub" where users can view:

- **Assigned Programs:** Names, descriptions, and total required credits.
- **Course Sets & Courses:** Specific modules within each program.
- **Class Details:** Active Course Instances, instructor names, and availability status.

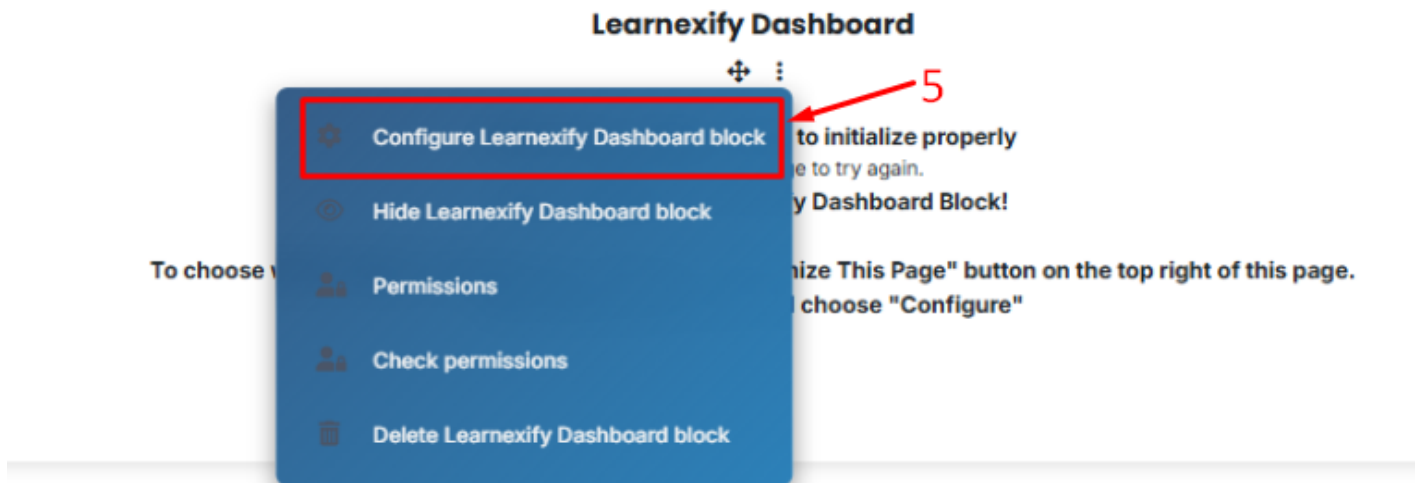

Follow these steps to enable the widget for your users:

- Navigate to the Dashboard.
- Toggle Edit Mode to "On" (top right corner).
- Click Add a block and select Learnexify Dashboard.

- On the new block, click the Three-dot menu (?) and select Configure Learnexify Dashboard block.

- Then from the configure Learnexify block, select Program Widget, Click **Save changes**.
