

Permission Management & Role Overrides

Permissions control who can view or modify the widget.
To set these, click the **Three-dot menu (?)** on the widget block and select **Permissions**

Use the Plus (+) Icon to grant a role (like: **Teacher or Manager**) permission, or the **Trash Icon (??)** to remove it.

Learnexify

Permissions in Block: Learnexify Dashboard

Advanced role override

Capability	Risks	Roles with permission	Prohibited
Block: Learnexify Dashboard			
Add a new Learnexify Dashboard block block/elisdashboard:addinstance		Manager	+
Add a new Learnexify Dashboard block to My home block/elisdashboard:myaddinstance		Manager	+
Block			
Edit a block's settings moodle/block:edit		Manager	+
View block moodle/block:view		Authenticated user Student editingteacher	+

Back to Block: Learnexify Dashboard

- **View block:** Controls who can see the widget (e.g., Students).
- **Edit a block's settings:** Controls who can change colors and configurations (e.g., Admins or authorized Managers).
- **Add a new Learnexify Dashboard block to My home:** Determines if users can manually add this block to their personal "My Home" page.

Manager		+
Manager		+
editingteacher	Manager	+
Student	Manager	+

[Back to Block: Learnexify Dashboard](#)

Then, choose one of the following:

- **Inherit:** Use the standard site default.
- **Allow:** Explicitly grant the permission.
- **Prevent/Prohibit:** Block the role from performing the action.

Override permissions for role **Manager** in Block: Learnexify Dashboard

The highlighted cells in the table below show the permission (if any) that will be inherited. Apart from the capabilities whose permission you actually want to alter, you should leave everything set to Inherit.

Capability	Permission	Risks
Block: Learnexify Dashboard		
Add a new Learnexify Dashboard block/learnexifydashboard:addinstance	Inherit (Allow)	
Add a new Learnexify Dashboard block to My home/learnexifydashboard:myaddinstance	Inherit (Allow)	
Block		
Edit a block's settings moodle/block:edit	Inherit (Allow)	
View block moodle/block:view	Inherit (Not set)
