

Widget Configuration & Display Settings

To configure this **LearningPlan widget**, navigate to: **Side Menu > Admin > Widgets Settings > Learning Plan Widget**.

1. **Sync User's Grades:** When enabled, the system automatically recalculates grades in the background every time the dashboard loads.
 - **Admin Tip:** Disable this only if you wish to reduce server load, but keep it Enabled to ensure students always see their most recent marks.
2. **Un-enrolled Classes:** Determines if courses the student has not yet joined are visible.
 - **Usage:** Set to "**Yes**" if you want students to see their full future curriculum. Set to "**No**" to keep the dashboard focused only on active work.
3. **Always Grades for Incomplete Classes:**
 - **Enabled:** Shows the current "running total" grade for ongoing courses.
 - **Disabled:** Only displays a grade once the course is officially marked as "Completed."

LearningPlan Widget

1 Sync User's grades ☒ Default: Yes
If enabled, user's grades will be sync'd when the widget is initially loaded on a page.

2 Un-enrolled classes: ☐ Default: No
Display un-enrolled classes.

3 Always grades for incomplete classes ☒ Default: No
Always show a user's current grade, even if the class is not yet complete.

Progress Bar

If a system has enabled credits, a progress bar can be shown for students to help them track their progress. The following settings deal with the progress bar.

Progress Bar Configuration

The progress bar provides a visual, graphical representation of how much of a program the student has finished.

Enabled: Toggle the bar on or off.

- **Note:** The bar will only appear if Required Credits have been defined for that specific Program.

Color Stages: Customize the bar's color based on the student's progress to align with your institution's branding:

- **0%–49% (Initial Stage):** Represents the start of the journey (Default: Red).
- **50%–79% (Midway Stage):** Represents significant progress (Default: Yellow).
- **80%–100% (Success Stage):** Represents near-completion or graduation (Default: Green).

Always show a user's current grade, even if the class is not yet complete.

Progress Bar

If a program has required credits set, a progress bar can be shown for students to help them track their progress. The following settings deal with the progress bar.

Enabled

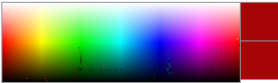

☒ Default: Yes

eliswidge_learningplan | progressbareenabled

Turn the progress bar on or off completely. If on, a program will still have to have it's required credits set for the progress bar to appear.

0%-49% Color

eliswidge_learningplan | progressbarcolor1

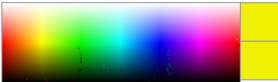

Default: #A70505

The progress bar will be this color if progress is between 0% and 49%.

50%-79% Color

eliswidge_learningplan | progressbarcolor2

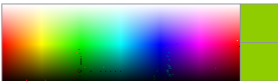

Default: #D5D100

The progress bar will be this color if progress is between 50% and 79%.

80%-100% Color

eliswidge_learningplan | progressbarcolor3

Default: #009029

The progress bar will be this color if progress is between 80% and 100%.

Save changes

After making the necessary changes, click the **Save button** to save your settings.
